

Medium-term Management Plan

“One Yamato 2023”

(FY March 2022～FY March 2024)

～Based on “YAMATO NEXT100”～

YAMATO HOLDINGS CO., LTD.

February 1, 2021

Table of contents

1. Progress and results of "YAMATO NEXT100"
2. Views on the business environment underlying "One Yamato 2023"
3. The thinking behind "One Yamato 2023"
4. Main initiatives
 - (1) Optimal allocation of management resources, based on data analysis
 - (2) Reinforcement of Group infrastructure
 - (3) Strengthen corporate business
 - (4) Creating the best solution for the "EC ecosystem"
 - (5) Promoting data and innovation strategies
 - (6) Reforming management structure and reinforcing governance
 - (7) HR strategy which supports "Innovating Delivery Business"
 - (8) Improving capital efficiency
 - (9) Strengthening sustainable management
5. Quantitative targets
6. Investment plan
7. Image of future growth

1. Progress and results of "YAMATO NEXT100"

Made progress in the structural reform of the Group as "One Yamato", by bringing together and making the best use of the Group's management resources, together with Group-wide efforts to solve challenges faced by customers and society

Spread of the COVID-19 pandemic
Further acceleration of
 "Expansion of EC in all industries"

Changes in people's lifestyles

Customers and society

Changes in distribution structure

One Yamato

Agencies 180,000	TA-Q-BIN centers 3,700	EAZY CREW 10,000+	Sales drivers, etc. 80,000+	Employees 220,000	Warehouses 110	Bases 77
Network coverage of TA-Q-BIN in Japan 100%	Kuroneko Members 45 million	No. of parcels handled 2 billion / year	Sound financials AA- rating (R&I)	Yamato Business Members 1.3million companies	Vehicles 57,000	Customer base 2 million+ companies
Share of parcel delivery in Japan No. 1 (42% share)				IT platform and data Stable data operation for 2 billion parcels a year		

1. Progress and results of "YAMATO NEXT100"

Basic strategy and progress of "YAMATO NEXT100"

(1) Transform into a management that can boldly address customer and social needs

⇒ Bring together management resources which were dispersed within the Group, centered around the heads of each business and functional division, and transform into a management that can solve challenges faced by customers and society

(2) Shift to a data-based digital management

⇒ Promote optimal allocation of management resources, through business volume forecasts based on data analysis

⇒ Improve efficiency of pickup & delivery, as well as trunk-route transportation
☞ Progress in productivity improvement and cost optimization

(3) Evolve into a management that creates a logistics ecosystem openly through co-development

⇒ Coping with the "Expansion of EC in all industries"

☞ Release of and adding features to EAZY, establishing and reinforcing EC delivery network through collaboration with partners

☞ Co-development with EC operators etc. (Z Holdings, Doodle, etc.), in order to establish an EC ecosystem

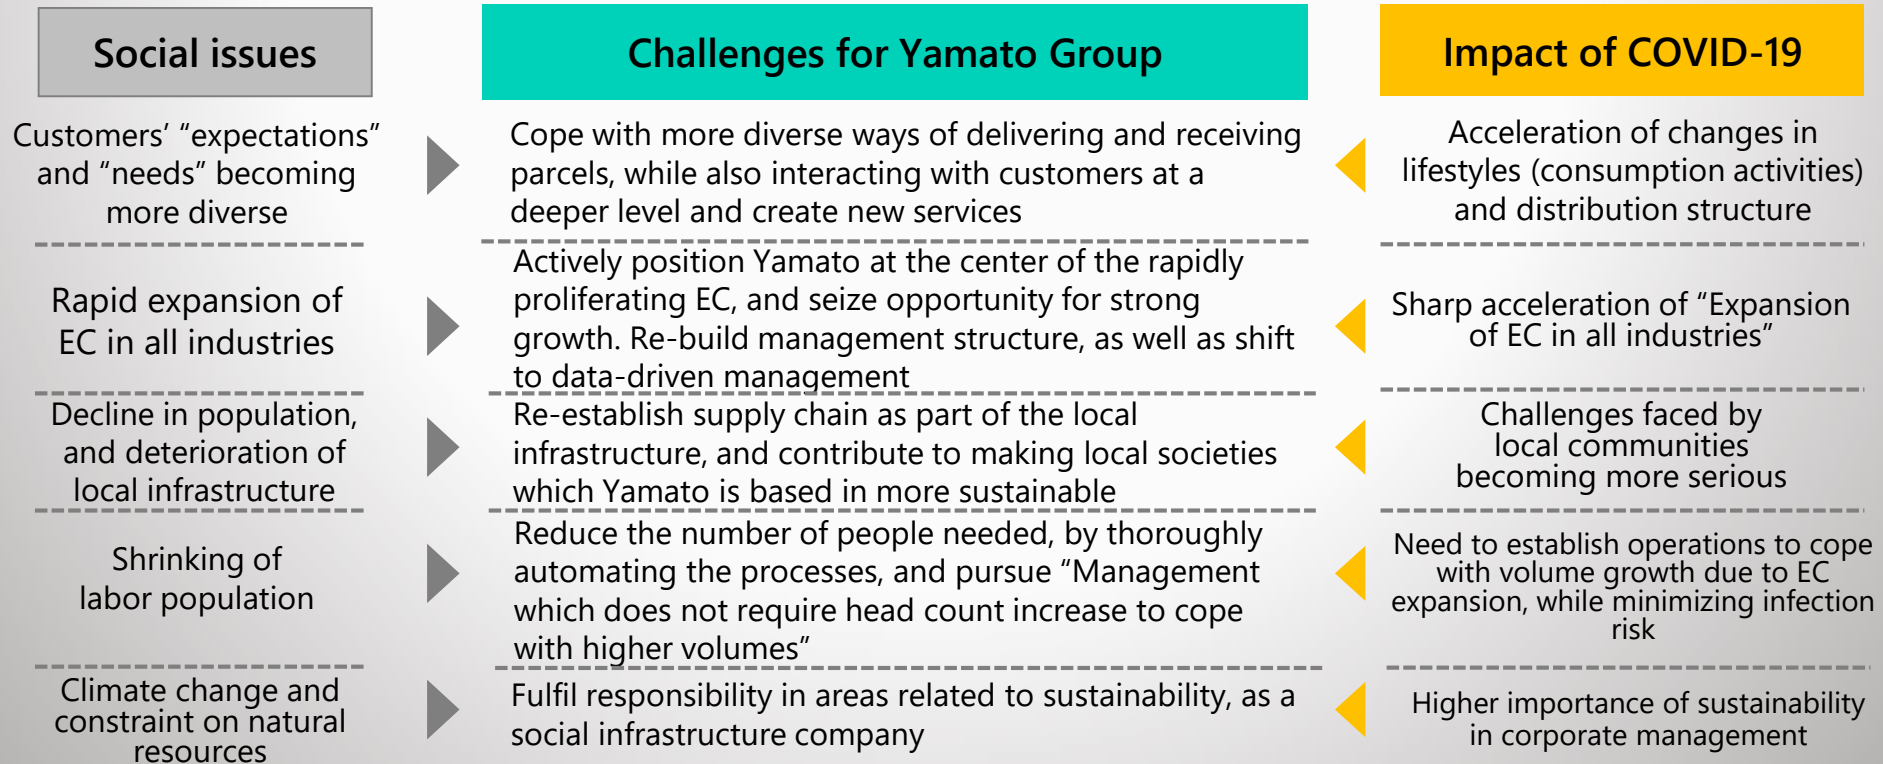

⇒ Reinforcing logistics solutions for corporate clients

☞ Promote account management, while making use of strengths in last-mile deliveries, and expand the scope of value-provision to areas other than delivery itself

2. Views on the business environment underlying "One Yamato 2023"

Rapid acceleration of changes in lifestyles (consumption activities) and distribution structure, triggered by the spread of the COVID-19 pandemic

- Consumption activity ⇒ Further growth of EC, and shift to omni-channel including non-face to face interactions
- Distribution structure ⇒ Total optimization of inventory and supply routes

3. The thinking behind "One Yamato 2023"

- With "YAMATO NEXT100" as the base, and in response to the extremely rapid "Expansion of EC in all industries", driven by sharp changes in "lifestyles" and "distribution structure" over the past year, and cope with further growth in EC-related demand
- In BtoB logistics, expand and sophisticate Yamato's value-provision to the entire supply chain, by utilizing the strength of having the last-mile network, as well as the logistics network including warehouses that can respond to changes in the supply chain (reform supply chain as the logistics player that is most suited to the "New Normal" brought about by COVID-19)
⇒ Proactively face the needs of customers and society as a truly "One Yamato", make the lives of individual customers more convenient, while supporting the overall management of corporate clients, thereby becoming the "Best partner of both individual and corporate customers"

"One Yamato 2023"

Improve corporate value

Optimal allocation of management resources through data analysis

Reinforcement of Group infrastructure

Corporate business

EC ecosystem

Data strategy, innovation strategy

Organization and governance

HR strategy

Financial strategy

Sustainable management

YAMATO NEXT100

4. Main initiatives

- (1) Optimal allocation of management resources, based on data analysis
- (2) Reinforcement of Group infrastructure
- (3) Strengthen corporate business
- (4) Creating the best solution for the "EC ecosystem"
- (5) Promoting data and innovation strategies
- (6) Reforming management structure and reinforcing governance
- (7) HR strategy which supports "Innovating Delivery Business"
- (8) Improving capital efficiency
- (9) Strengthening sustainable management

4. Main initiatives

(1) Optimal allocation of management resources, based on data analysis

Improve accuracy of business volume forecasting, based on data analysis ~ Productivity improvement

⇒ Achieve business growth by increasing the time spent and contact points with customers

TA-Q-BIN centers

- Improve productivity of delivery, and create time for sales activities
- Reduce the number of processes, such as loading onto trucks

Bases

- Optimal allocation of personnel and vehicles, and improve efficiency of operations
- Optimization of trunk-route transportation

4. Main initiatives (2) Reinforcement of Group infrastructure

① Reallocate and expand functions of facilities to strengthen value-provision and improve productivity

Pick-up & delivery facilities

- Reallocate on the TA-Q-BIN network facilities owned by various Group companies
 - Optimal location for improving service levels
 - Consolidation of transportation between facilities and other operations

Sorting facilities

- Through automation by digitalization, as well as consolidating operations in certain facilities, strengthen functions while improving productivity
 - Expand sorting capacity by as much as 50%

4. Main initiatives (2) Reinforcement of Group infrastructure

② Optimization of and adding functions to transportation functions, and expanding an open delivery network

- Reallocate trunk-route, middle mile and last-mile transportation functions of various Group companies on the network, and further promote the total optimization of transportation and delivery processes
- Utilize local networks that can cope with small-to-middle lot high-frequency deliveries, and develop Yamato's original TMS (Transport Management System), and thereby expand transportation functions that cater to the diverse needs of each region
- Make pick-up & collection tools sophisticated to further strengthen the collaboration with partners, such as "EAZY CREW", which caters to diverse customer needs related to EC. Expanded support to partner companies, such as building portal sites for drivers, providing leased vehicles, as well as enriching safety training and welfare

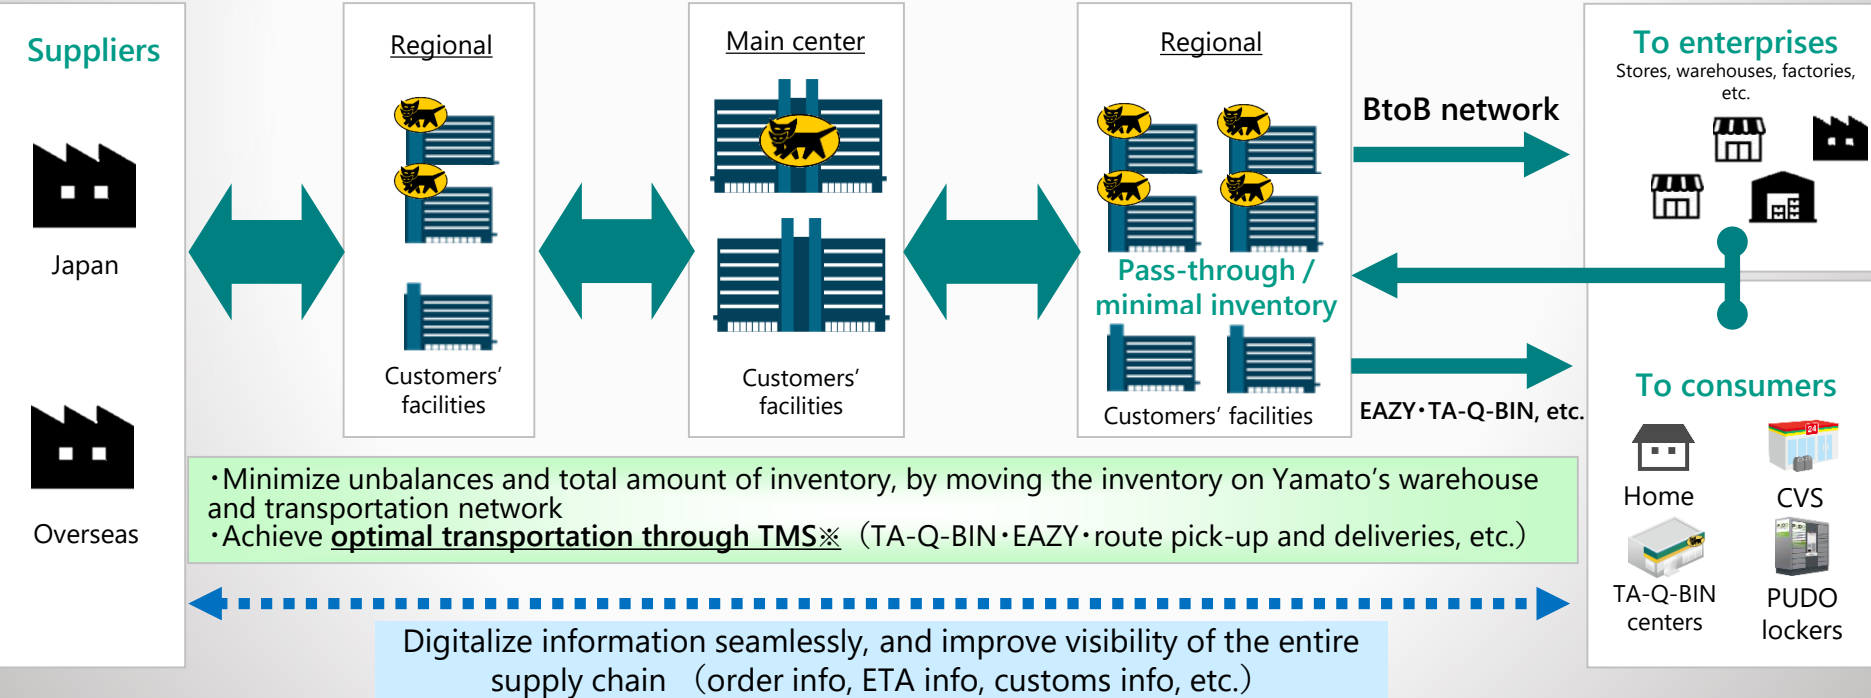

4. Main initiatives (2) Reinforcement of Group infrastructure

③ Promotion of BPR (Business Process Re-engineering)

- Make a firm-wide effort to promote operational efficiency, through standardization and digitalization of administrative operations, with the Professional Service Function Division taking the lead
 - Cut down on administrative work (by approx. 40%)*
- ⇒ Create time and contact points for employees in the front-line to face customers
- * Rough estimate of effects of initiatives at the end of March 2024 (compared to FY March 2021)
- Optimization of Group sourcing and procurement
 - ⇒ With a focus on fair and sustainable trading practices, consolidate sourcing and procurement at the Group level, and thereby optimize costs

4. Main initiatives (3) Strengthen corporate business

Become a partner that supports the reform of the entire supply chain
 ~ Provide optimal solutions, utilizing management resources as "One Yamato"

Suppliers / vendors

- Standardization and simplification of shipment operations
- Optimization of inventory

Sellers

- Minimize distribution costs
- Cope with diverse and rapidly-changing demand

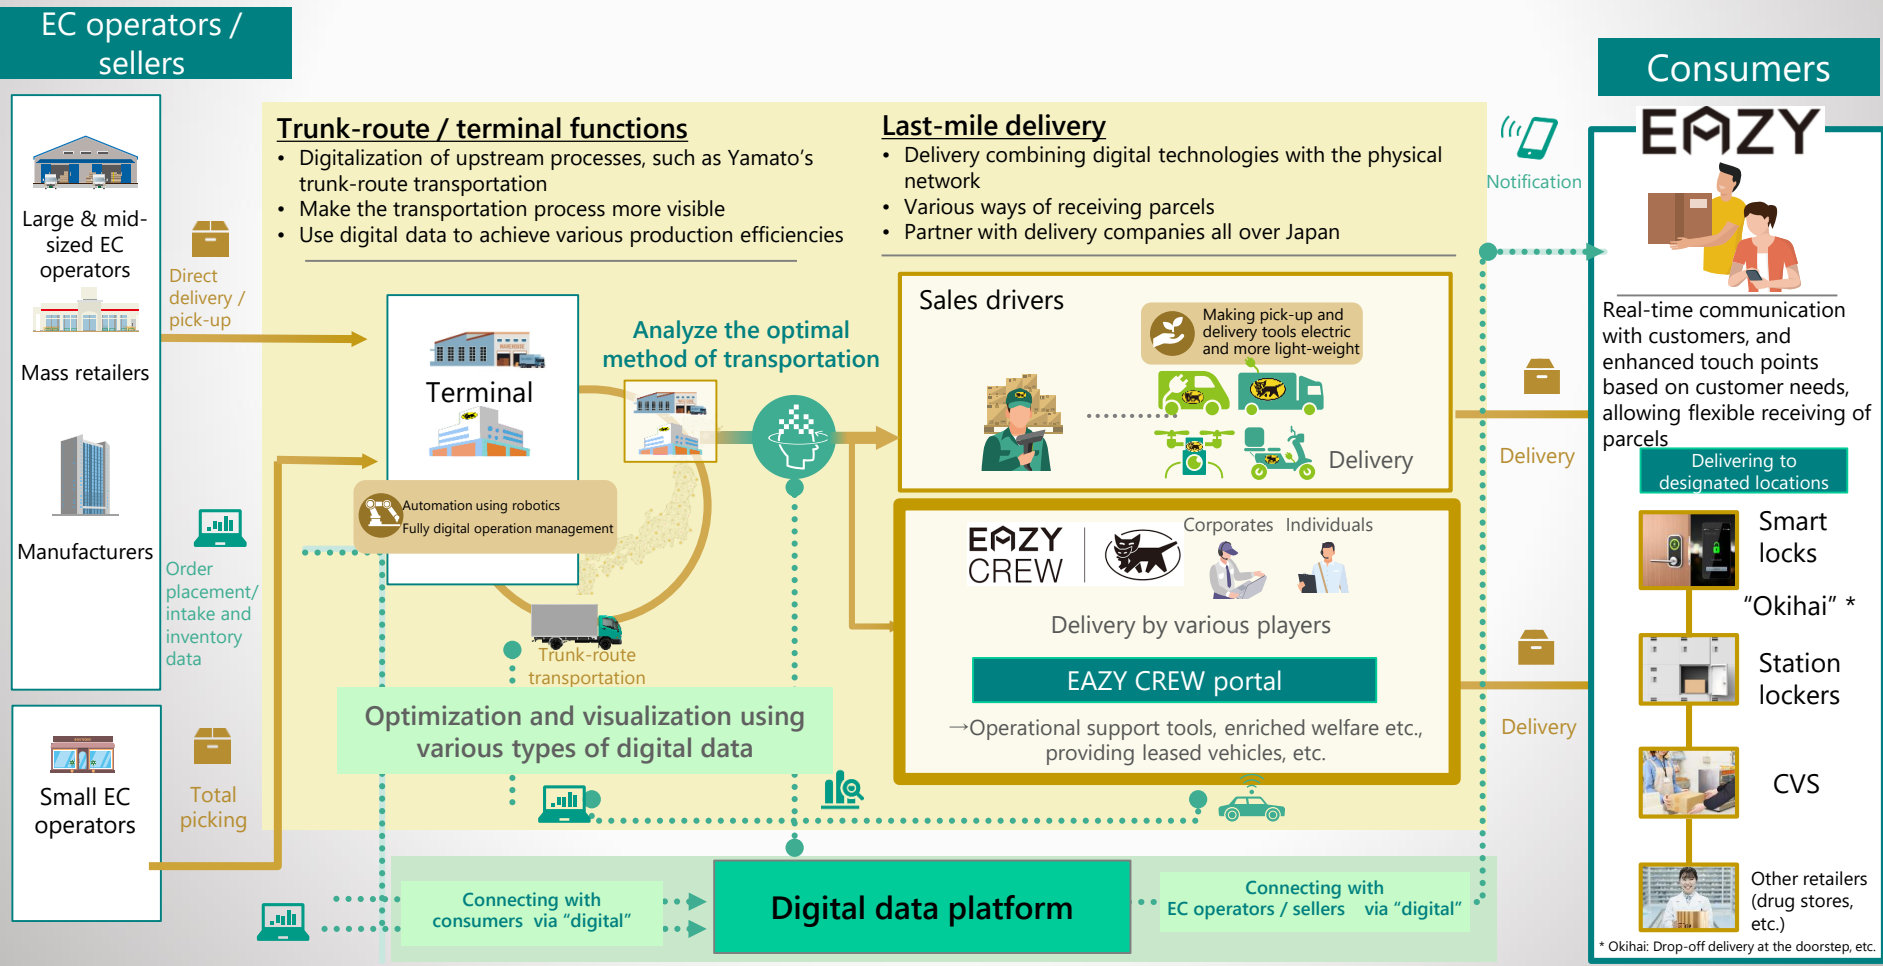

Retailers / consumers

- Can maximize selling space (use retail space as showrooms)
- Can accommodate diverse ways of purchasing

4. Main initiatives (4) Creating the best solution for the "EC ecosystem"

Creating a new "Deliver" which connects EC operators and consumers

~Create new value in EC logistics, using digital technologies

Benefits for EC operators

- Increase in sales opportunities
- Customer satisfaction improvement through various value-adds
- Digital communication with clients

Benefits for consumers

- Real-time communication about deliveries
- Shorter lead times between order and arrival
- Wide range of options available for receiving parcels

Benefits for delivery companies

- Can forecast business volume (allowing resource optimization)
- Robust support measures in place
- Efficient deliveries using operational support tools

4. Main initiatives (5) Promoting data and innovation strategies

① Maintaining digital data and establishing a digital platform

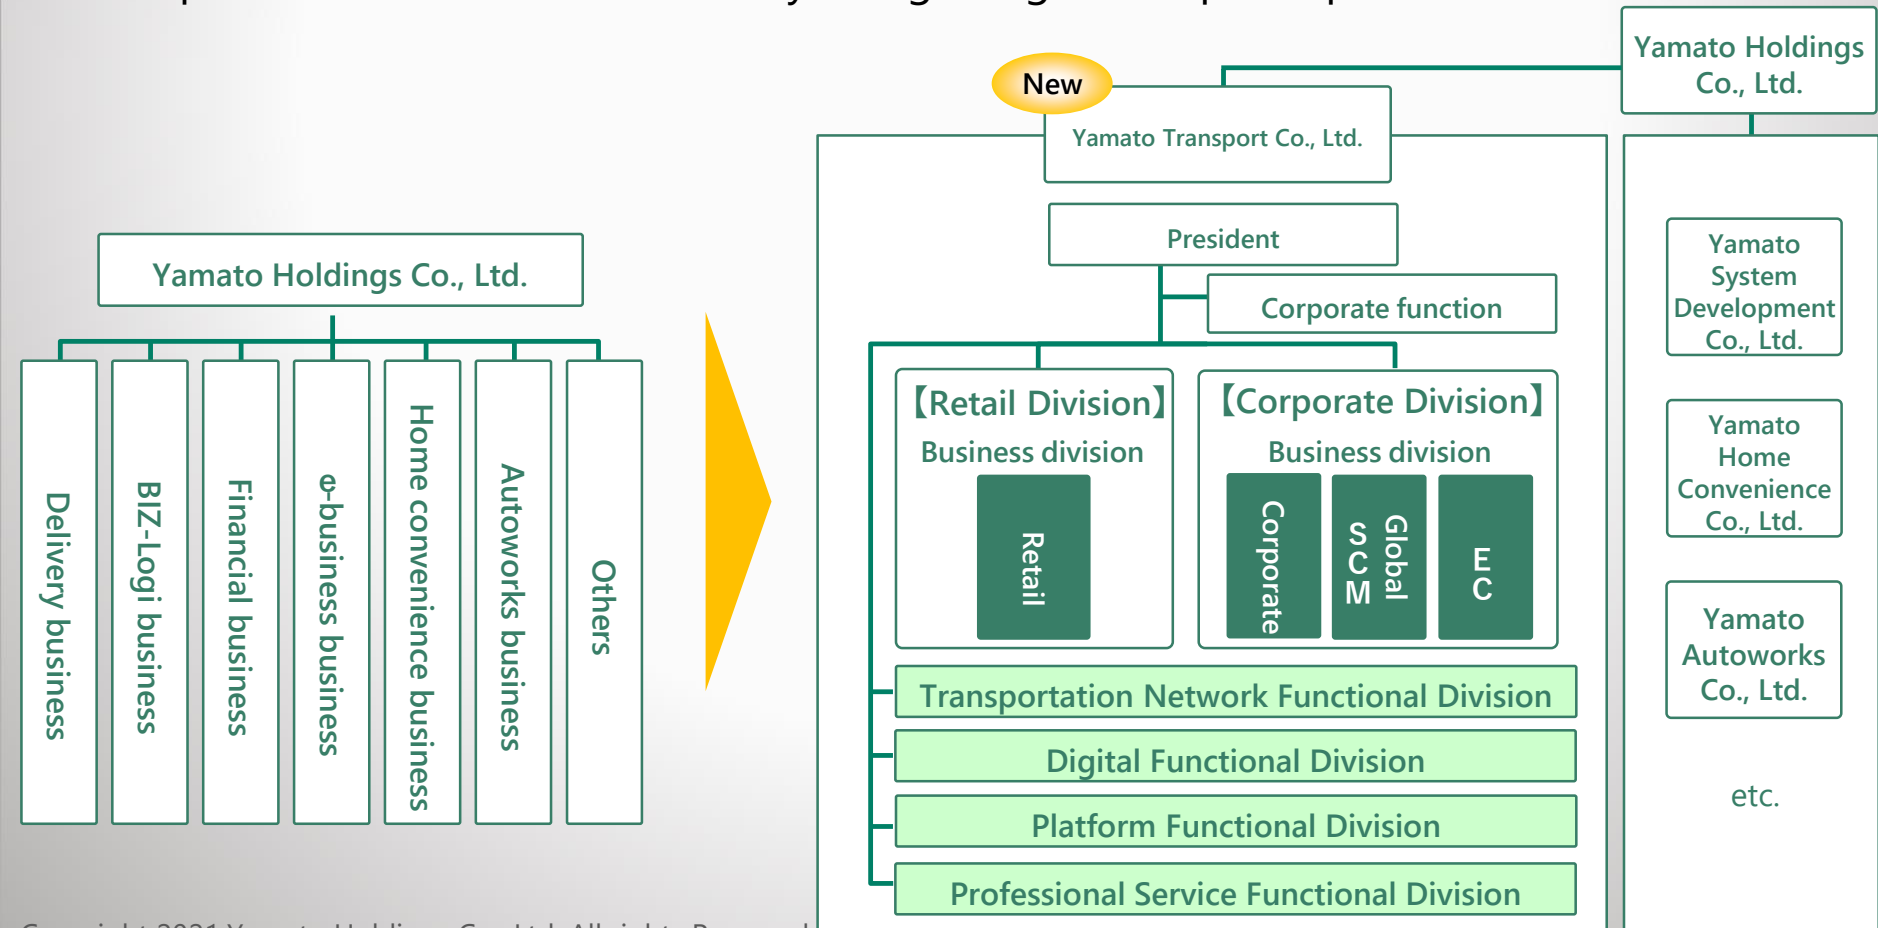

- Promote to maintain digital data and reinforce the digital platform, in order to make Yamato's "Digital data management" more sophisticated and accurate
- Strengthen measures to collect digital data using the latest technologies, as well as the "Yamato Digital Platform" focusing on cloud technologies, and support the 9 "Main initiatives" through digitalization

② Promotion of innovation strategy

- Open innovation, to create new businesses
- Corporate innovation, to reform the entire company

4. Main initiatives (6) Reforming management structure and reinforcing governance

- Shift to the “One Yamato” management structure in April 2021
- Yamato Holdings Co., Ltd. will continue to exist, in order to separate management supervision and execution, and to maintain and further improve management transparency
- Establish a governance structure that speeds up decision-making, with the new “Yamato Transport Co., Ltd.” as the core entity, integrating 7 Group companies

4. Main initiatives (7) HR strategy which supports "Innovating Delivery Business"

Under the new management structure, renew the HR system in order to clarify the roles and responsibilities of each employee in the front-lines, thereby improving the evaluation process, and to train specialized personnel in the business and functional divisions, who will grow to become top performers and leaders of the Yamato Group

- Strengthen the organization and train specialized personnel through "Kuroneko Academy", the training organization to help employees learn and grow
- Additional focus on mid-career hires
- Reinforce sustainability measures, focusing on human rights issues
 - Train employees on human rights
 - Promote "Decent work"

4. Main initiatives (8) Improving capital efficiency

■ Financial strategy ~Basic policy~

In consideration of growth (operating revenue), profitability (operating profit margin), financial soundness (cash generation, balance of cash & deposits, level of equity ratio), progress of investments, capital efficiency, etc., improve shareholder value through a timely and adequate capital policy, based on stable dividends (use DOE※ as benchmark)

※Dividend on equity ratio

ROE	: 10% or above	(FY March 2024)
Dividend payout ratio	: 30% or above	
Total payout ratio	: 50% or above	(cumulative ratio for FY March 2021~FY March 2024)

Securing financial soundness

- Adequately control liquidity on hand (cash and deposits), including preparation for making flexible responses to various situations
- Will control capital, considering factors such as capital efficiency, ratings, BCP (business continuity planning) as a social infrastructure company, etc. (equity ratio of 45~50% to be used as a benchmark)

4. Main initiatives (8) Improving capital efficiency

Shareholder return

- With the maintaining of stable dividends as the basic stance (using DOE※ as the benchmark), and comprehensively considering the cash generation of each fiscal year, progress made in investments, outlook on performance and investments for the next fiscal year onwards, conduct timely and appropriate shareholder return

4. Main initiatives (9) Strengthening sustainable management

Establish plans and targets through fiscal year ending March 31, 2024 with the aim of realizing our two visions for a sustainable future.

Sustainable Medium-Term Plans 2023

- Medium-Term Environmental Plan 2023
- Medium-Term Social Plan 2023

2023 Targets

(Fiscal year ending March 31, 2024)

Environmental Vision

“Connect. Deliver the future via green logistics”

Social Vision “Through co-creation and fair business activities, help create a society that ‘leaves no one behind’”

(Long-Term Targets)

4. Main initiatives (9) Strengthening sustainable management

Environment

Moving Forward, "Connect. Deliver the Future via Green Logistics". Yamato Group's Individual-Driven Environmental Reforms.

Materialities	Main Fiscal 2023 Targets (Fiscal year ending March 31, 2024)	Main Initiatives
Energy & Climate	<p>Mitigate Climate Change</p> <ul style="list-style-type: none"> • Reduce greenhouse gas emissions by 10% compared to fiscal year ending March 31, 2021*1 • Reduce greenhouse gas emission intensity by 10% compared to fiscal year ending March 31, 2021*2 • Use 30% of electricity generated via renewable energy sources 	<ul style="list-style-type: none"> • Reduce greenhouse gas emissions through using electricity generated via renewable energy sources, enhancing transportation efficiency by utilizing digital technology, and reducing use of dry ice, etc.
Atmosphere	<p>Clean Up the Skies (Prevent Air Pollution)</p> <ul style="list-style-type: none"> • Reduce NOx and PM emissions from vehicles by 25% compared to fiscal year ending March 31, 2021*3 • Introduce vehicles that emit fewer air pollutants 	<ul style="list-style-type: none"> • Introduce low-carbon vehicles, and carry out investigations and collaborative research into automated mobility with the aim of realizing low-carbon transportation and preventing air pollution
Resource Conservation & Waste	<p>Promote Resource, Conservation and Reduce Waste</p> <ul style="list-style-type: none"> • Use 55% renewable resources and recycled materials for paper materials*4 • Reduce landfill disposal rate (final disposal rate) to 5% or less*5 • Provide products utilizing recycled materials and resource-saving materials 	<ul style="list-style-type: none"> • Use renewable resources, recycled materials • Reduce and reuse resources, including water, and waste • Develop reusable materials and provide framework for material sharing usage
Resilience of Companies & Society	<p>Support a Society That Combats Environmental Changes</p> <ul style="list-style-type: none"> • Green logistics in collaboration with our business partners • Collaborate with society to improve environmental resilience • Provide environmentally friendly products and services 	<ul style="list-style-type: none"> • Understand partner's greenhouse gas emissions, provide environmental certification and support improvement, etc. • Conduct tests to increase resilience and engage in environmental communication, etc. • Develop products and services

*1: In-house emissions of consolidated companies in Japan and Swan Co., Ltd. (Scope1 & Scope2). *2: In the same range as *1. tCO₂e /operating revenues of ¥100 million.

*3: The range refers to Yamato Transport Co., Ltd. *4: Paper material refers to cardboard for shipping, pickup and delivery materials, etc. *5: Equivalent to reduction by half compared to the past.

4. Main initiatives (9) Strengthening sustainable management

Social

Through Co-Creation and Fair Business Activities, Help Create a Society That “Leaves No One Behind.”

Materialities	Main Fiscal 2023 Targets (Fiscal year ending March 31, 2024)	Main initiatives
Labor	<p>Create a work environment where employees can thrive</p> <ul style="list-style-type: none"> • Improve operating revenue per employee (through high-value-added work) • Overtime per employee ⇒ Reduce by 20% compared with fiscal year ending March 31, 2021 • Ensure annual paid leave utilization rate is 90% (achieve work-life balance) 	<ul style="list-style-type: none"> • Consider a high-value-added model for labor by promoting optimization and labor-saving and improving the work environment through the utilization of digital transformation • Create a work environment where employees can thrive and play an active role by developing individual skills and placing the right person in the right position (promote decent work)
Human Rights & Diversity	<p>Create a corporate culture that respects human rights and diversity</p> <ul style="list-style-type: none"> • Ensure 100% attendance rate in human rights training for all employees • Ensure percentage rate of employees with disabilities is 2.5% • Number of female managers (executives) ⇒ Double compared with fiscal year ending March 31, 2021 / Ensure 10% of all managers are female 	<ul style="list-style-type: none"> • Implement human rights training for all employees • Carry out human rights risk assessments and improvement (periodic) • Reinforce harassment prevention measures • Implement horizontal development of good practices regarding employment of people with disabilities • Implement LGBT training and develop LGBT-related consultation • Reinforce recruitment of foreign employees, labor management, and training
